

I Gusti Agung Andika

Bali, Indonesia | +62 823 4050 6408 | agungandikabali@gmail.com

SUMMARY

I am a creative professional with a passion for visual storytelling, digital design, and content creation. My expertise includes Real Estate Content Creation, Visual Editing, Graphic Design, UI/UX Design, and Front-End Web Development, allowing me to transform ideas into engaging visual experiences that communicate effectively and strengthen brand identity. I specialize in producing cinematic property content, compelling social media visuals, intuitive user interfaces, and impactful digital assets that combine creativity with strategic thinking. Supported by a solid foundation in HTML, CSS, and JavaScript, I bridge the gap between design and development to create visually refined and user-centered digital products. Driven by curiosity, continuous learning, and a strong attention to detail, I constantly explore modern design trends and creative technologies to deliver meaningful, high-quality solutions that leave a lasting impression.

EXPERIENCE

Great Bali Villas – Bali, Indonesia

Real Estate Creator (March 2026 – Present)

- Produced high-quality photo and video content by capturing villa and property visuals that highlight each property's unique features and atmosphere.
- Edited cinematic real estate videos and short-form social media content to create engaging visual storytelling aligned with the brand's marketing objectives.
- Designed creative marketing materials and digital assets, including social media graphics and promotional content, to strengthen brand identity and increase audience engagement.

EIVERN - Bali, Indonesia

Front-End Developer & UI/UX Designer (October 2024 – January 2026)

- Design and optimize user interfaces for websites, ensuring a seamless and visually appealing user experience across platforms.
- Develop responsive and scalable web applications using Laravel, Livewire, and Inertia.js, integrating modern UI/UX principles into functional web solutions.
- Collaborate with the development team to implement clean, maintainable code while ensuring consistency between design and implementation

IBIG Academy – Bali, Indonesia

Indormation Communication Technology Teacher (July 2025 – December 2025)

- Teach and develop ICT curriculum from basic programming concepts to Python coding, including lesson planning, practical exercises, and project-based learning.
- Mentor and support students in problem-solving, algorithmic thinking, and applying coding skills to real-world scenarios while monitoring their progress and performance.
- Continuously improve teaching methods by integrating the latest educational tools, collaborating with colleagues, and aligning lessons with school objectives.

PT Djitu Solusi Digital - Bali, Indonesia

Graphic Designer Intern (March 2025 - June 2025)
